DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 2-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2-12 are deemed improper and indefinite because they either depend on themselves or depend on claims that depend on themselves. Further two claims are numbered as claim 2. Correction is required.

Double Patenting

A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

Art Unit: 2655

Claims 2, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11 and 12 are rejected under 35 U.S.C. 101 as claiming the same invention as that of claims 1, 2, 3, 4, 5, 6, 7, 8, 11, 9, 10 and 12 respectively of prior U.S. Patent No. 6,788,634. This is a double patenting rejection.

Note as indicated above, claims 2-12 are deemed improper because of being dependent on itself or depends on claims that depends on itself. However, it is believed that if the dependencies are corrected, the claims would be the same as claims 1-8, 11, 9, 10 and 12 of US Patent 6,788,634.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1, 13 and 14 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 and 13 of U.S. Patent No. 6,788,634.

Although the conflicting claims are not identical, they are not patentably distinct from each other because they are in broader form than claims 1 and 13 of the patent. The broader claims as presented in the current application would therefore include the limitations as set forth in the patent and would be deemed an obvious variant.
